

# Reception Newsletter Week 4 23/11/18

Our Learning: This Terms topic is 'Celebrations'

## This week

This week have been recapping 2d shapes and talking about their properties. We have been making repeating patterns using shapes, colours and objects.

In literacy we have been writing recipe instructions and spells trying to include our word of the week 'put'

We have continued our keeping safe theme and have had visits from the Police, Paramedics, Fire Brigade and the Blue Cross where we learnt how to keep safe around dogs. Have a look on db at our keeping safe page.

## How you can help at home

Go on a shape hunt in the house or around the local area. What shapes can you find? Can you take a photo and bring them in?

Talk about how your child knows it is a rectangle/square etc. Talk about how many corners and sides it has.

Make patterns using objects in the garden or around the house try making a repeating colour/shape or object pattern

- Thank you to those of you that brought back the 'All About Me' forms, we have enjoyed reading about your child's interests at home. If you haven't done so already please can you fill it in and return it, children's interests change all the time so it would be good to find out what their current interests are. Thank you

## Requests

- Deer class and Owl class would like some more junk modelling please

Db don't forget to log on to db regularly as we update photos and add tasks that link to our learning. This week there is an adding task and a keeping safe task.

## Word/sentence of the week -

put

Have a go at writing labels such as

put in a \_\_\_\_\_
